TV mount buying guide.

A practical category overview and procurement checklist. This guide is not a model catalogue or an installation manual.

Six categories at a glance

Fixed TV Wall Mounts	A clean, close-to-wall installation where the viewing position stays consistent.
Tilting TV Wall Mounts	Adjust the vertical viewing angle while keeping the installation on the wall.
Full-Motion TV Mounts	Bring the TV away from the wall and adjust its direction for different viewing positions.
Ceiling TV Mounts	Support a TV from above when a wall location does not suit the space.
Tabletop TV Stands	Support a television on furniture without using a wall or ceiling attachment.
Video Wall Mounts	Build a coordinated display layout with alignment and service access considered together.

Before requesting a quotation

- TV make/model, dimensions, weight and VESA pattern.
- Wall, ceiling, tabletop or multi-screen installation requirements.
- Required movement, clearance and maintenance access.
- Estimated quantity, destination market and preferred timing.

- Branding, colour, packaging and instruction requirements.

Before confirming an order

Review the proposed product configuration, specifications, drawings, samples, included components, MOQ, lead time and shipment terms. Product ratings apply to the selected model. Site-specific installation assessment and suitable fixings are the responsibility of the project installer.
